

Product information ARTEMISIA PET

Artemisia Pet

It contains artemisia powder from Swiss organic cultivation. Supplementary feed for animals.

Our Artemisia plants come from organic farming. They are grown in Switzerland, harvested and processed by hand. We use only the dried leaf tips.

In the blending process, the raw materials are micronized, i.e. they are crushed to a grain size of about 60 microns without being heated. We use only vegi capsule shells, made of vegetable material (HPMC) without gelatin.

How does Artemisia work?

Artemisia contains a substance which, on contact with iron ions (which are found in certain cells, for example), breaks down into two aggressive components which rapidly kill unwanted cells or germs (e.g. bacteria, plasmodia, etc.) in the vicinity.

Advantages of Artemisia Pet

- Contains Artemisia from organic production
- We use only the dried leaf tips and no stems, woody parts, etc.
- Special cultivation with high content of phy-siologically interesting plant substances.

Recommended intake

Animals up to 10 kg: 1 capsule per day
Animals up to 30 kg: 3 capsules per day
Animals up to 50 kg: 5 capsules per day
Animals over 50 kg: 6 capsules per day.

Take at least 1 hour outside of meals with some liquid.

Instructions for use
