

## Product information CAYE VIDA

**Caye Vida** contains cayenne pepper from Swiss chili peppers and green tea extract. All in organic quality from certified production. Caye Vida is produced in Switzerland.

**The cayenne plants** for kingnature's Caye Vida capsules are organically grown in Switzerland and carefully harvested by hand. Afterwards, the carefully dried pods are ground and processed into capsules in Switzerland. During the processing we take care that no ingredients are lost.

The product is neither chemically treated nor do we add preservatives. Everything remains 100% natural.

**Cayenne** is one of over 400 chili varieties. Hot spices are not everyone's cup of tea. But cayenne pepper is one of the most digestible spices and has been helping to keep the population healthy in many parts of South America for centuries. All chilies contain the natural substance capsaicin, which makes them hot and causes them to burn in the mouth. Many people avoid hot spices because they think they will harm the stomach. The opposite is true. Those who like to eat spicy food know the pleasant feeling after eating, known as "pepper high", which could be due to an endorphin release in the brain.

### What are the advantages of Caye Vida?

- Cayenne pepper from Swiss cultivation.
- All ingredients in organic quality from certified production
- Cayenne pepper is scientifically documented.
- Benefit from the ingredient capsaicin without having to endure the heat
