

Product information EISEN VIDA

Eisen Vida contains microencapsulated iron and curry leaf extract containing iron. Iron contributes to the formation of red blood cells and reduction of fatigue. It contains 14 mg of iron per capsule in a special high bioavailability for the formation of hemoglobin.

Bioavailable Iron: We have developed and successfully tested our own special formula that ensures the highest possible bio-availability. An iron micro-encapsulated in lecithin is combined with iron-containing curry leaf extract and blended by means of special processing into a natural product. Processing and testing take place in Switzerland.

Curry leaf extract: We use an organic curry leaf extract tailored to our product, which has a special characteristic and therefore meets our requirements for a high quality product. We analyze and process the raw material mass in Switzerland.

Advantages of Eisen Vida

- Iron contributes to normal cognitive function.
- Iron contributes to normal energy metabolism.
- Iron contributes to normal formation of red blood cells and hemoglobin.
- Iron contributes to normal oxygen transport in the body.
- Iron contributes to normal functioning of the immune system.
- Iron contributes to the reduction of fatigue and tiredness.
- Iron has a function in cell division.

Recommended dosage

Take 1 capsule daily with food.
