

Product information FLEXIMOVE PRO

Fleximove: with high quality arnica essential oil, St. John's wort oil and CBD in an aroma therapy blend.

Fleximove is a natural joint oil with CBD and arnica. Fleximove is a special blend of essential oils, which in their combination are a soothing, nourishing joint oil and contribute to the maintenance of bodily functions through their nourishing character.

The essential oils are based on arnica and St. John's wort. Both herbs are well known from aromatherapy and can be used for maintenance care. We also use a CBD extract to perfect the blend.

Advantages of Fleximove

- High quality essential oils
- 100% natural
- Beneficial nourishing joint oil

How natural is Fleximove?

Fleximove is a purely natural product. It consists of essential oils and therefore already has preservative properties, which is why no chemical additives are required. The arnica and St. John's wort extracts are organically grown.

Application

Apply 1 pipette each morning and evening to the affected areas and massage in.

Directions for use

Shake well before use. Store in a cool, dry place and do not expose to sunlight. Keep out of reach of children.
