

Product information Herbal Hero

Herbal Hero combines ingredients from six different plants to create an interesting mix.

The ingredients at a glance:

- Dandelion leaf extract
- Grape seed extract
- Reishi spore powder
- Quercetin-containing extract from the Japanese string tree
- Brown algae extract
- Rose root extract

Dandelion - a superweed

Dandelion contains important bitter substances, vitamins, minerals and antioxidants.

Grape seeds - with valuable polyphenols

Grape seeds have a remarkable content of OPC (oligomeric proanthocyanidins).

Reishi - a lucky mushroom among the mushrooms

The reishi mushroom has become indispensable in Asian countries for maintaining good health. The oval, yellow-brown reishi mushroom spores are more bioactive than the rest of the mushroom.

Quercetin - more than just a natural dye

It has antioxidant properties, and a particularly high concentration of quercetin can be found in the flowers of the Japanese string tree (*Sophora japonica*).

Brown algae - health from the sea

Brown algae are a group of algae with an impressive variety of health benefits. They are rich in nutrients and have detoxifying properties.

Roseroot - adaptogen from barren areas

Rhodiola rosea thrives easily in barren, harsh and cold areas.

What are the benefits of Herbal Hero?

- Interesting ingredients from six selected plants
- Developed with Prof Dr Stefan Hockertz
- Vegi capsule made from HPMC (purely vegetable capsule shell)

- Selected raw materials of the highest quality
- Careful manufacturing in a Swiss production facility
