

Product information Longevity Box

Live better for longer

Support your body with energy metabolism, haematopoiesis and cell division. The Longevity Box contains a combination of very specific plant substances and vitamins that help to maintain good health. We all want to enjoy life for longer ('a better health span') and not just prolong it ('a longer life span').

Longevity = longevity. In other words: an extension of the health span and not just the life span. The aim of the Longevity Box, or rather the two products Renew and Reset Vida, is to support your body in doing what it normally always does. Your body wants you to stay healthy under all circumstances. The Longevity Box is designed to support your body in this.

Reset Vida and Renew Vida = Longevity Box

Together with Renew Vida, Reset Vida forms the practical 2-month Longevity Box. These two products are preferably taken alternately for one month each. They can also be used individually.

Reset Vida and **Renew Vida** differ in their senolytic and senoreversive characteristics.

Reset Vida contains SenoFree®

Press the reset button and support your body with energy metabolism and cell division

Reset Vida contains the unique, patented and scientifically proven nutrient mix SenoFree®.

This combination of specifically selected plant substances includes extracts from the flowers of the Japanese string tree and the leaves of the wig bush, various herbs, carnosine, sunflower lecithin, oatmeal and vitamin B12 in the bioactive form methylcobalamin.

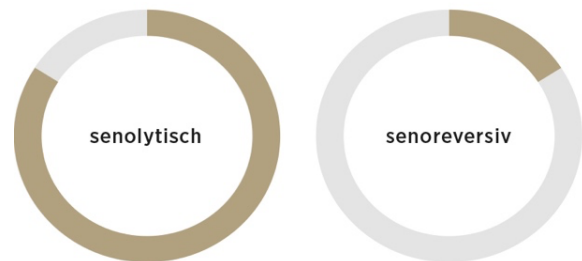

Contents Reset Vida

Reset Vida contains 60 vegan capsules with the active ingredient mix SenoFree® with carnosine, Japanese string tree extract, wig bush extract, herbal mix, lecithin from sunflowers, oatmeal and vitamin B12. Net content 38 g.

Renew Vida

Advantages of the Longevity Box

- Good for energy metabolism and cell division
- The Longevity Box contains vitamin B12. This contributes to normal energy metabolism
- has a function in cell division
- contributes to the normal formation of red blood cells
- contributes to normal homocysteine metabolism (an elevated homocysteine level is considered a risk factor for the development of coronary heart disease)
- With SenoFree® and SenoXure® - two unique, patented and scientifically proven nutrient mixtures
- Groundbreaking scientific research
- research, realised in a revolutionary concept
- Practical box for two months
- Vegi capsule made from HPMC (purely plant-based capsule shell)
- Selected raw materials of the highest quality
- Carefully manufactured in a Swiss production facility
- No added sugar, sweeteners, additives, colourings, fillers or excipients
- Swiss Made
- Vegan

Recommended intake

In the 1st month: Take 2 capsules of Reset Vida daily (1 in the morning and 1 in the evening)
 In the 2nd month: Take 2 capsules of Renew Vida daily (1 in the morning and 1 in the evening)
 Do not exceed the recommended intake.
 Our developers recommend repeating steps 1 and 2 on an ongoing basis, as new senescent cells continue to form with increasing age.
 Minimum recommendation: Carry out the treatment for 6 months the first time and then repeat it annually for 2-4 months

Instructions for use

This product is not a substitute for a varied and balanced diet that includes fresh fruit, vegetables and a healthy lifestyle.
 way of life. Store in a cool, dry place and out of the reach of children.

Minimum shelf life

36 months
