

Product information MSM VIDA

MSM Vida with organic sulfur MSM, glucosamine and chondroitin.

Glucosamine and chondroitin are components of connective tissue, ligaments and articular cartilage. MSM Vida contains MSM. This is a sulfur compound produced naturally in the body. In addition, MSM Vida contains manganese and vitamin E. Manganese contributes to the normal formation of connective tissue and the maintenance of normal bones.

With every physical activity we stress at least one joint. Especially athletes and people of advanced age should therefore pay attention to the preservation of their joint mobility and provide the body with suitable basic substances for this purpose.

Advantages of MSM Vida

- With manganese. Manganese contributes to the normal formation of connective tissue and the maintenance of normal bones.
- With vitamin E. Vitamin E helps protect cells from oxidative stress.
- With chondroitin sulfate from fish.
- Encapsulated in a vegi capsule.

In the mixing process, the raw materials are micronized, i.e. they are crushed to a particle size of about 60 microns without being heated. We use only vegi capsule shells, made of vegetable material (HPMC) without gelling agents.

Refill packs

We are now offering refill packs (initially only in Switzerland) in the form of 750 ml stand-up pouches. In this way, the product cans can be reused. The stand-up pouches correspond to 4 cans in terms of content and price. The bags are designed exclusively as refill bags (for 4 refills) and are not suitable for daily opening and resealing for reasons of shelf life!

Recommended dosage

2 capsules per day.

Directions for use

This product is not a substitute for a varied, balanced diet, fresh fruits and vegetables and a healthy lifestyle. Store in a cool, dry place out of the reach of children. Do not exceed the recommended intake.

Minimum shelf life

36 months

Ingredients

Glucosamine hydrochloride, methylsulfonylmethane (MSM), chondroitin sulfate (from fish), vegetable capsule (hydroxypropylmethylcellulose), DL-alpha-tocopherol (vitamin E), manganese gluconate

Note

Not suitable for pregnant and lactating women, children, adolescents and persons on anticoagulant medication.
