

Product information NEOVITAL

Neovital contains vitamins C, B12, E, folate (vitamin B9) and beta-carotene (provitamin A) in liposomal form. In addition, alpha-lipoic acid and quercetin are included.

Folate, vitamin C and the vitamins of the B12 group contribute to normal functioning of the immune system, reduction of fatigue and tiredness, and normal mental function. Folate and the vitamins of the B12 group have a function in cell division.

Vitamins C and E help protect cells from oxidative stress. Vitamin C and the vitamins of the B12 group contribute to normal energy metabolism and normal functioning of the nervous system.

Alpha-lipoic acid is a sulfur-containing fatty acid, which is both fat and water soluble. In its natural (R) form, it is also found as a coenzyme in mitochondria (tiny "power plants in cells").

Quercetin is a flavonoid found in various fruits and vegetables. The best sources include onions, apples, berries, broccoli or kale.

Advantages of Neovital

- In Neovital the vitamins are liposomally packed in soy lecithin. This provides the possibility of improved absorption.
- With many vitamins and secondary plant substances.
- Neovital is vegan.

Recommended dosage

Take 1 measuring cup (5 ml) daily with 200 ml water, preferably at least 15 minutes before a meal.

Directions for use

Keep out of reach of children. Do not exceed recommended dosage. Not a substitute for a varied, balanced diet, fresh fruits and vegetables and a healthy lifestyle.

Storage

Store at room temperature before opening, in the refrigerator after opening. Please store upright and do not drink directly from the bottle. Shake before use.

Minimum shelf life

36 months

Ingredients
