

## Product information Renew Vida

### Bring fresh energy into your cells!

Support your body in cell division and haematopoiesis. Renew Vida is the result of ground-breaking, cutting-edge research, realised in a revolutionary concept. There are plant substances in nature that can influence senescent cells.

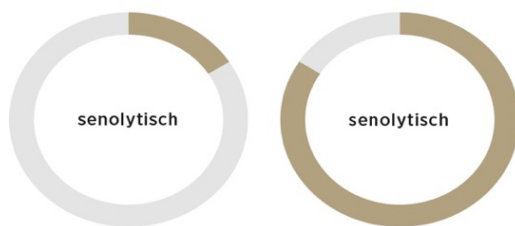

### What are senescent cells?

Senescent cells are the body's own cells that no longer divide and lose their original function. They have a negative impact on the surrounding cells and thus contribute to impaired organ function. As we age, our immune system becomes less effective at removing these senescent cells.

### Renew Vida contains SenoXure®

Renew Vida contains the completely new, patent-protected and scientifically tested nutrient mix SenoXure®.

#### Renew Vida

### Advantages of Renew Vida

- With SenoXure®, a unique patented and scientifically proven nutrient blend
- Groundbreaking scientific research, realised in a revolutionary concept
- Use for 1 month
