

Product information VINO VIDA

Vino Vida contains a red wine extract with a lot of OPC.

We use a grape seed extract of the highest quality from Italian grapes, which is also extracted in Italy with a gentle process.

In the grapes whose extract we use for Vino Vida, we pay special attention to a particularly high OPC content. OPC is an interesting ingredient in red wine extract. Another secondary plant substance in red wine is resveratrol. One capsule of Vino Vida contains the same amount of OPC as one liter of red wine, but no alcohol.

Protection against oxidative stress

Vino Vida is rich in natural vitamin C from acerola fruit.

- Vitamin C contributes to normal collagen formation for normal blood vessel function.
- Vitamin C helps protect cells from oxidative stress.
- Vitamin C contributes to normal functioning of the immune system and nervous system.
- Vitamin C contributes to the reduction of tiredness and fatigue.

Advantages of Vino Vida

- contains polyphenols, OPC, flavanoids and resveratrol
- excellent ORAC value of over 1'660'000 µmol TE/100g of the used grape seed extract

In the blending process, the raw materials are micronized, i.e. they are crushed to a particle size of about 60 microns without being heated. We use only vegi capsule shells, made of vegetable material (HPMC) without gelatin.

Recommended dosage

Take one capsule 1 time daily with sufficient liquid.

Directions for use

This product is not a substitute for a varied, balanced diet, fresh fruits and vegetables and a healthy lifestyle. Store in a cool, dry place out of the reach of children. Do not exceed the recommended dosage.

Minimum shelf life

36 months
